

Abacus? - Why do we learn it?

Abacus gives you a great exercise for your growing brain.
By exercising your brain, you can become better at maths and even other subjects.

Anybody can have a smarter brain by exercising it.

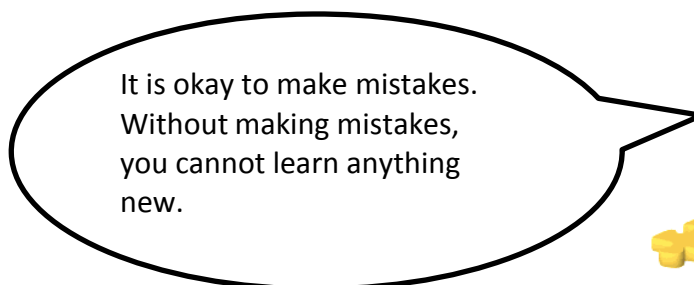

With the abacus, you will exercise your brain using your hands, fingers, eyes, ears, and your imagination.

You will also learn to focus by using your abacus.

The abacus is a type of game or puzzle which you can learn to solve by making a lot of mistakes and learning from these mistakes.

Learning the abacus means you need to exercise your brain and challenge yourself.

and **ENJOY!**
